

RSPCA NSW Inspectorate Annual Report 2021 - 2022

Submitted in accordance with clause 34 *Prevention of Cruelty to Animals Regulation 2012 (NSW)*

- (a) a statement of the number of, and a summary of the substance of, complaints relating to animal cruelty or mistreatment received by the organisation:

Between 1 July 2021 and 30 June 2022, RSPCA NSW received a total of 14,088 complaints alleging cruelty to animals contrary to the *Prevention of Cruelty to Animals Act 1979 (NSW)* (hereafter the Act). These complaints often involved more than one animal and multiple complaint types.

A breakdown of the species of animal and type of complaint can be found in Appendix 1 - "Complaint Codes – 2021-2022".

- (b) a statement of the number of visits or investigations made by officers of the organisation as a result of those complaints:

Of the 14,088 complaints received, RSPCA NSW investigated 13,085 complaints (an average of 35.8 jobs per day). The investigation of these complaints involved 13,085 initial inspections and a further 3,793 revisits. Revisits were generally conducted to inspect subject animals and assess compliance with either written or verbal directions.

RSPCA NSW referred 156 (1.1%) complaints to the NSW Police Force for investigation in the first instance. The referrals were made based on the urgent nature of the animal welfare concern and proximity of the nearest RSPCA Inspector. In relation to the complaints attended by NSW Police, a proportion were referred back to the RSPCA for revisit or follow up inspection.

RSPCA NSW referred 21 complaints to the Animal Welfare League NSW during 2021-2022.

RSPCA NSW referred 32 complaints to other agencies as the allegation fell outside RSPCA NSW jurisdiction.

A total of 366 complaints were logged for intelligence purposes only as there was information alleging one or more offence within RSPCA NSW jurisdiction, but insufficient information to determine or identify a person of interest.

- (c) a statement of the number of visits or investigations made by officers of the organisation that were unrelated to those complaints (such as routine inspections of abattoirs, veterinary practices, pet shops or saleyards):

RSPCA NSW's Sheltermate database does not have the capacity to distinguish between cruelty complaints and 'routine' (proactive) inspections conducted on animal trades under the provisions of section 24G of the Act.

Data is captured separately to record the number of 'routine' inspections conducted by the RSPCA NSW Inspectorate. A summary of the 201 'routine' inspections conducted during 2021/2022 is tabled below. These figures for 'routine' inspections are not included in *Appendix 1 - "Complaint Codes – 2021-2022"*.

Please note that the capacity to conduct 'routine' inspections is dependent on available resources, with the investigation of animal cruelty complaints taking priority. During the reporting period, the impact of COVID-19 public health regulations restricted Inspectorate capacity to enter facilities other than in respect of a cruelty complaint.

These specific details could only be obtained by reviewing the visit reports associated with each of the 13,085 investigated complaints. In practice, RSPCA Inspectors provide verbal advice as part of the investigation of the

majority of complaints. In addition, Inspectors regularly provide educational materials to animal trade operators in the form of NSW DPI resources, printed copies of relevant Codes of Practice, and verbal guidance in respect of animal welfare.

(d) a statement of the number of persons cautioned by officers of the organisation:

Official Cautions issued by RSPCA NSW in accordance with the *Fines Act 1996* (NSW) are issued by the Chief Inspector or Deputy Chief Inspector. During the reporting period, RSPCA NSW issued 15 Official Cautions.
